After research at Harvard University and MIT, Dr Vladan Ivanović earned his PhD in political economy from University of Hohenheim – Stuttgart, Germany. He earned his first PhD from University of Kragujevac, where he is full professor of economics. Dr Ivanović is fellow at the Foundation of Karl University in Prague and Centre for Economic Research of the Czech Academy of Science.

With vast experience in innovation economics, institutional economics, applied economic analysis, and econometrics, he consults international and national clients including the World Bank, USAID, European Union, Olaf Palme, WWGlobal, Western Balkan Fund, ICT HUB, Konrad Adenauer Foundation, Foundation Center for Democracy, Open Society Fund. He created the first instrument for monitoring the digital labour market in Southeast Europe ("Gigmeter"). Consultant to strategic consultancy IPG Group Zurich, Switzerland. He is one of the co-founders of the Serbian Venture Capital Fund Omorika.

President of the Konrad Adenauer Foundation alumni supervisory board; member of the Scientific Society of Serbian Economists and member of EUKONVENT (chapters 2 and 19). Erasmus Plus Ambassador in Serbia (2022-2024).

Dr Ivanović published more than 50 papers on international economy, institutional economics, economics of innovation and technological change, in international journals including *European Journal of Political Economy*, *New Political Economy*, *Economic Systems*, *Economic Research*.

Recent work

- Case 1 Consulting on the strategic development of research infrastructure in Serbia for research, science, and technology sectors to raise performance and create an environment and linkages leading to the development of new innovative companies (World Bank).
- Case 2 Chef (technical) adviser on the international project advising the consortium of technology, financial, and consulting institutions on the development of methodology for tracking best-performing technology and industrial sectors in Serbia (USAID).

- Case 3 Consulting and preparing a report on developments in the Western Balkans labour market and proposing solutions for harvesting synergies of integrated regional market.
- Case 4 Consulting on the development of a new consulting tool for a DACH region aiming to strengthen digital transformation and innovative performance of business processes and an introduction of new business models.
